Dear Dr. Chiu,

I wanted to extend to you in writing how pleased I was with how you interacted with me regarding my procedure on June 15, 2005. Being in the Customer Satisfaction business, I am acutely aware of the policies and procedures of businesses that rely on the satisfaction of their clients. My experience with the Beverly Hills Surgical Institute was very impressive

I enjoyed the professional yet personal atmosphere that your administrative staff displayed and have already referred 13 of my business associates to the Beverly Hills Surgical Institute.

I look forward to meeting you again.

Sincerely,
