My Success Story with Beverly Hills Physicians.com . . .

Date: 12/21/05

You guys changed my life! After having lost 100lbs I had so much excess skin. And having been born with a birth defect my breasts were not at all what I would have liked them to be. Dr. Hodnett is brilliant. He did for me exactly what I wanted. It's an absolute miracle. The staff here is the finest, friendliest group of people I have ever seen.
